EDUCATION

VIT Bhopal University

B.Tech in Computer Science (AI & ML) – 8.70/10 CGPA

St. James' School

Class XII , ISC – 89.25 %

St. James' School

Class X, ICSE – 92.20 %

Bhopal, India

2022 – 2026

Binnaguri, W.B., India

2021 – 2022

Binnaguri, W.B., India

2019 – 2020

TECHNICAL SKILLS

- **Languages:** Python, Java, SQL, C++
- **FrameWorks & Tools:** Pandas, NumPy, Seaborn, Matplotlib, Power BI, Tableau, Excel, HTML5, CSS3.
- **Tools & Platforms:** Git, Docker, Postman, Linux, AWS
- **Domains & Techniques:** Generative AI, Machine Learning, Deep Learning, Data Visualization, Artificial Intelligence, Natural Language Processing

EXPERIENCE

CareerWale – Data Analyst Intern [LINK]

Sep 2024 – Feb 2025

- Conducted comprehensive data mining and preprocessing using **Python (Pandas, NumPy)** and **SQL** to clean, normalize, and integrate heterogeneous datasets, improving data reliability and reducing errors by 15%.
- Supported development and validation of predictive machine learning models by performing **Exploratory Data Analysis (EDA)**, **feature engineering**, and statistical testing, boosting model accuracy by 10%.
- Designed and implemented over **10+ interactive Power BI dashboards** and **Python visualizations (Matplotlib, Seaborn)** to enable real-time insights and support data-driven decision-making for business stakeholders.

PROJECTS

ShadowStamp – AI & Cyber-Based Anti-Piracy System [LINK]

Apr 2025 – May 2025

- Researched advanced multimedia security techniques including **watermarks, steganography, and FFT**; integrated Solana blockchain to enhance data integrity and traceability.
- Developed a real-time detection system using **OpenCV, YOLO, optical flow, and deep learning**, enhancing intellectual property protection.
- Led the project to a **Top 7 Finalist position at WAVES 2025**, recognized for innovative AI and cybersecurity.

KinderConnect - Child Centric Mental Health Portal [LINK]

Feb 2025

- Developed a **scalable AI-driven mental health platform** delivering personalized resources and support for children, leveraging Machine Learning models.
- Achieved **85% prediction accuracy**, optimizing resource recommendations and reducing user wait times.
- Finalist in the **Health Hackathon** hosted by VIT Bhopal University and Johns Hopkins University, USA, recognized for innovation in child mental health technology.

Global Data Science Salary Intelligence Dashboard [LINK]

Jun 2025 – Jul 2025

- Conceptualized and addressed the challenge of uncovering **data science compensation trends** by designing an advanced Tableau dashboard, analyzing **500+ job postings** to deliver actionable insights segmented by job title, experience level, and company size.
- Implemented a robust data pipeline leveraging **Tableau** for interactive visualizations, **Excel** for data preprocessing, and **Google Colab** for efficient data cleaning, enabling accurate exploration of salary distributions and career patterns.
- Delivered innovative findings, including a **20% salary premium** in large organizations and a strong positive correlation between **seniority** and compensation, positioning this project as a comprehensive **business analytics** solution.

ACHIEVEMENTS

- Semi-finalist at Smart India Hackathon, 2023 [LINK]
- Top 7 Finalist in Anti-Piracy Challenge, WAVES, 2025 [LINK]
